

Glassboro, NJ ▶ Project Summary

Before Photos; Glassboro, NJ

exterior common area renovation

At the Glassboro apartment complex, the team at Trifecta evaluated the entire exterior of the property and performed a complete reface to the outdoor common area. The upgrades included a complete re-pavement of the parking area. An initial assessment was done to identify all areas with cracks, potholes, and other damage. Our team conducted a site inspection, performed surface removal, managed traffic control and safety, graded and compacted the surface to ensure proper drainage, and finally installed a new layer of asphalt. Additionally, a power wash job of the exterior brick, walkways, seal coating, striping, crack filling in the parking lot and curb repairs. As a result of Trifecta build's seamless execution of the project, Glassboro apartment complex now looks as good as new.
